

Toronto Pearson Public Transit

Airport Planning
June 6, 2023

Supporting Better Transit Connections to Pearson

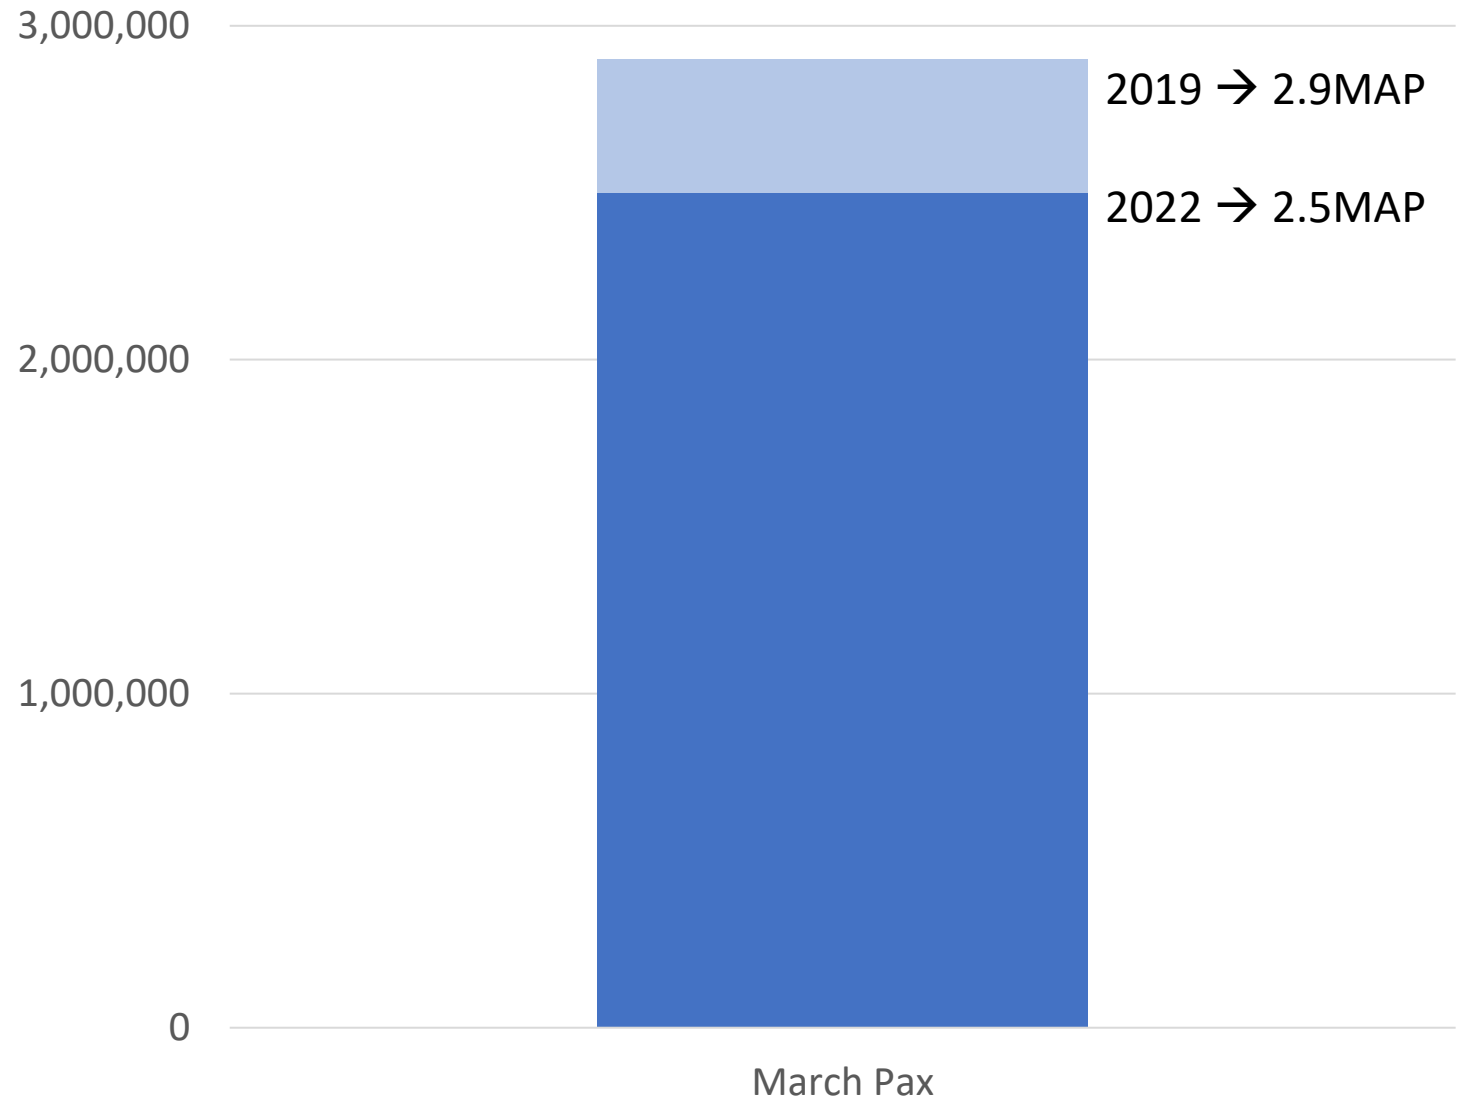

- As air travel recovery continues, we need to consider transit connections to support passengers and workers
- Transit offers reliable and convenient connections for people to access the airport.
- Better transit also supports investment decisions in the Airport Economic Zone

Airport Economic Zone

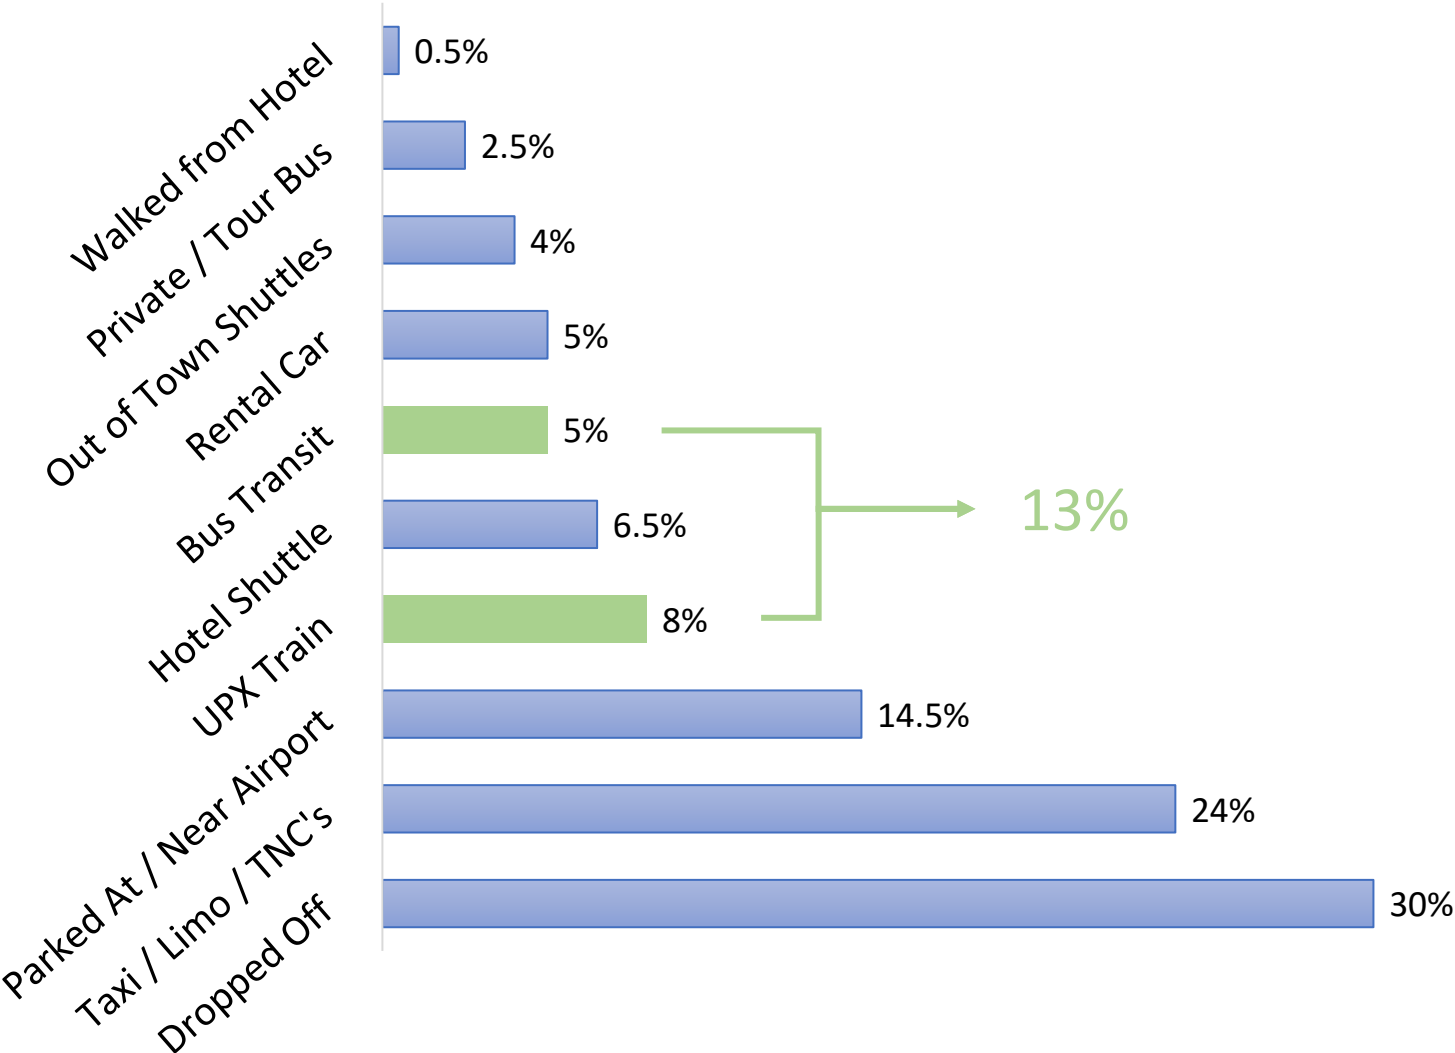

Airport Passenger Demand and Recovery

Toronto Pearson Passenger Demands

Transportation Mode to Toronto Pearson

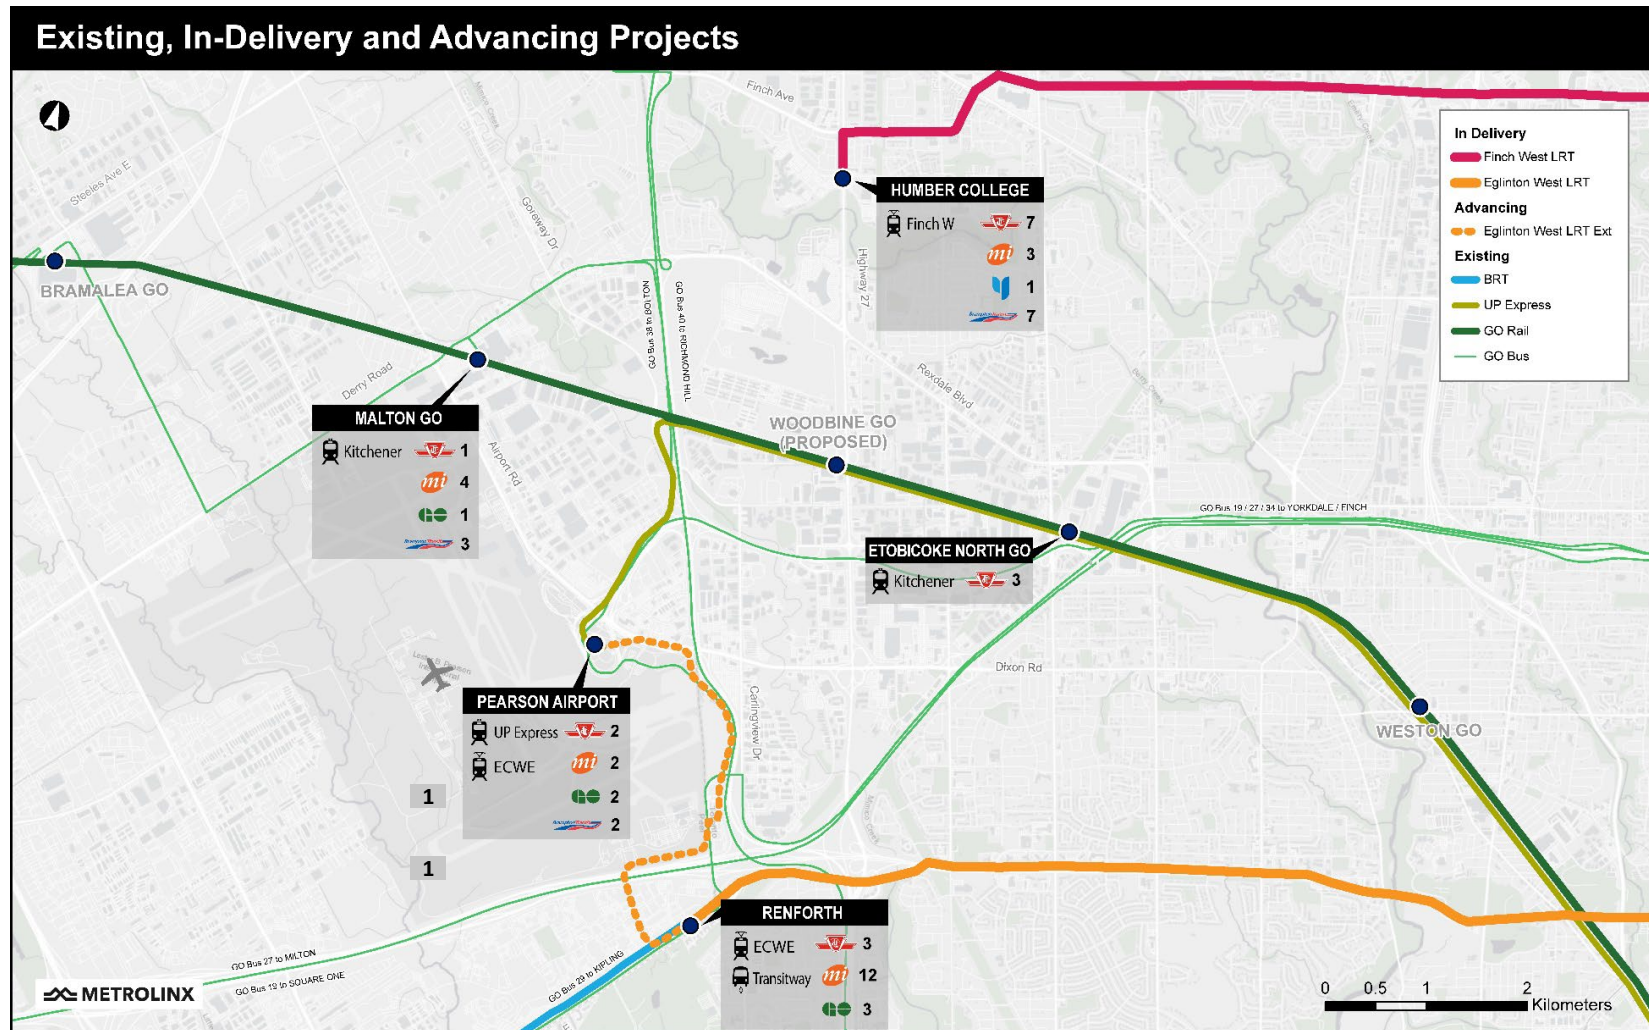

2018 Air Passenger Ground Access

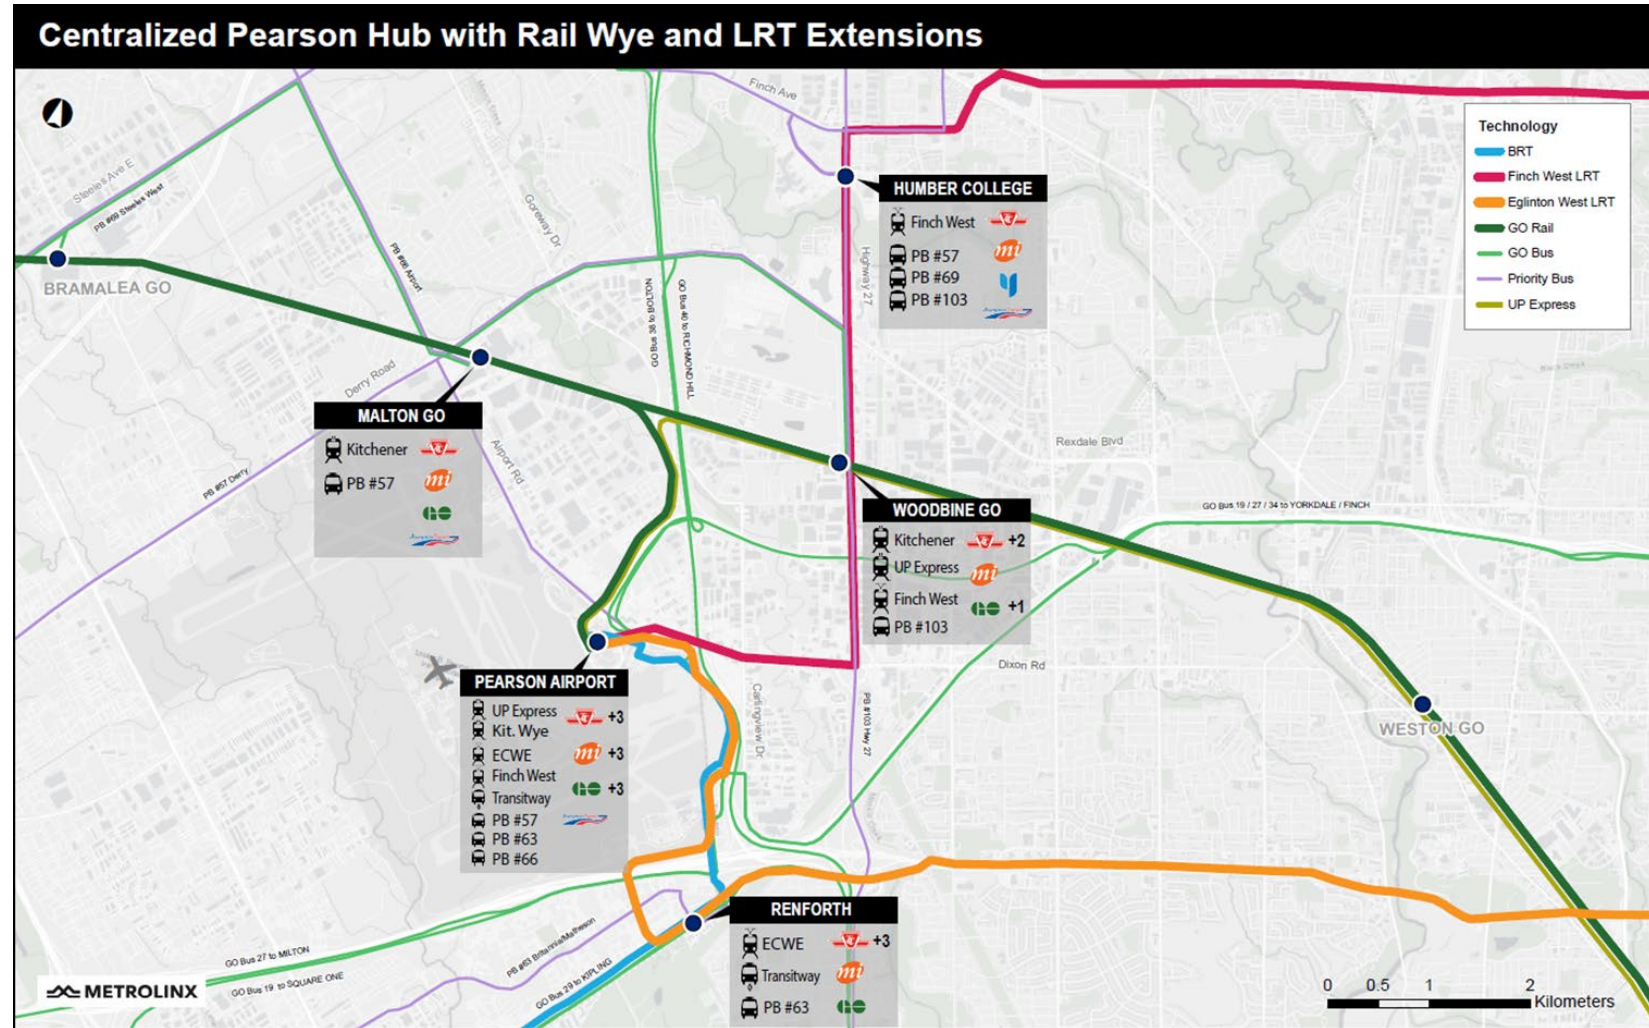

Existing Public Transit at Toronto Pearson

				
T1	Route #7 Route #100	Route #52/#952 Route #900 Route #300/332/352	Route #115	Route #34 Route #40 Route #94 UP Express
T3		Route #52/#952 Route #900 Route #300/332/352		
Viscount	Route #24 Route #107		Route #505	

Advancing Transit Projects in Airport Area

Proposed Transit Connectivity at Toronto Pearson

Eglinton Crosstown West Extension Airport Segment Preliminary Design

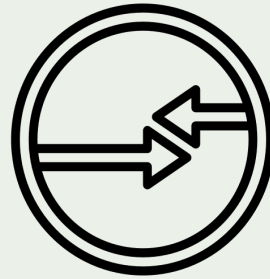

Airport Segment - Preliminary Design Business Case and Environmental Assessment

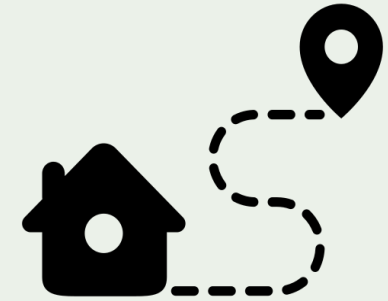

- Refine and optimize alignment
- Refine deliverability and benefits
- Investigate environmental impacts
- Set the project up for funding submissions

ECWE Transit Benefits

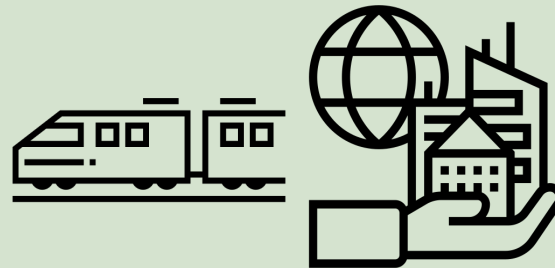

Serves the growing bidirectional travel demand across the region's urban growth centres.

Complete travel experiences for travellers in the region

Sustainable and Healthy Communities, improving quality of life and opportunities for development

Reliable and Safe connections to employment opportunities at and near the airport
