NOTICE DATES

2023-01-11 to 2023-01-17

REHABILITATION OF RUNWAY 06L/24R – COMPLETED

In April 2022, Toronto Pearson temporarily closed east/west runway 06L/24R, the airport's second-busiest runway, for a full rehabilitation. This was one of the largest runway repair projects in the airport's history. The rehabilitation is now complete, on time, and on budget. Runway 06L/24R is back open for business!

This project, funded in part by the federal government's Airport Critical Infrastructure Program, has extended the life of the runway by about 30 years and enhances Toronto Pearson's role in supporting a strong region, strong province, and strong Canada. We thank our neighbours, airport community, and project partners for their support and patience throughout this project. Visit our website to keep current on our operations.

More information on the runway rehabilitation project can be found [here](#).

MAINTENANCE NOTICE

The Toronto Pearson Noise Office publishes Maintenance/Construction Notices for resident awareness of airfield maintenance and construction that could lead to increased usage of other runways. This is regular, scheduled maintenance that may consist of but is not limited to grass cutting, rubber removal, patching, electrical work, and line painting.

This schedule is subjected to change, and unscheduled runway unavailability may occur.

RUNWAYS IMPACTED

Time period	Runway	Type of work
January 10-12 24:00-06:00	05/23 Runway 05/23 is part of our preferential runway system	Bombardier work (crane on airfield) Routine Maintenance
